Objective

A highly motivated, hardworking individual looking for a responsible role in a reputable organization. Eager to learn new technologies. Creative thinking, problem-solving, teamwork, and technical skills are my strengths. Proficient in Python, front-end development.

Skills

- Programming Languages: Python, JavaScript, C
- Frontend Development: HTML, CSS, JavaScript, React.js, Next.js Bootstrap, Tailwind CSS
- Backend Development: Node.js, Express.js, Stripe, JWT, Authentication
- Database Management: MySQL, PostgreSQL, MongoDB, Firebase
- Version Control & Deployment: Git, Github, Vercel
- Other Skills : Excel, PowerPoint.

Internship

- **NullClass**
Developed a fully functional YouTube clone with React.js, offering features like video playback, video recommendations, and search functionality.
Integrated the YouTube Data API to fetch video content dynamically.
Designed responsive user interfaces to ensure compatibility across various devices and screen sizes.

Projects

- **Full-Stack Food Delivery App**
 - Developed a responsive and dynamic food delivery application with full-stack implementation.
 - Utilized React.js for the front end, Node.js and Express.js for the back end, and MongoDB for database management.
 - Integrated user authentication feature, fetch food data from database, created place order feature and Stripe payment integration,
 - Implemented REST APIs for seamless data flow between the client and server.
 - Optimized performance and UI/UX for a smooth user experience.
- **YouTube Clone (Reactjs)**
Developed a YouTube clone using React.js, demonstrating proficiency in front-end development and component-based architecture.
Implemented features such as video search, playback, responsive design, and dynamic routing using React Router.
Integrated YouTube Data API to fetch real-time video data and enhance user experience.
- **Personal Portfolio (Reactjs)**
Designed and developed a fully responsive personal portfolio website to showcase projects, skills, and achievements.
Implemented smooth navigation and interactive elements using JavaScript to enhance user experience.
Optimized the website for performance and accessibility, ensuring cross-browser compatibility.
Deployed the portfolio online to demonstrate professional capabilities to potential employers.

- **WeatherApi App (JavaScript, openweather API)**

Developed a YouTube clone using React.js, demonstrating proficiency in front-end development and component-based architecture.

Implemented features such as video search, playback, responsive design, and dynamic routing using React Router.

Integrated YouTube Data API to fetch real-time video data and enhance user experience.

- **To-do List Application (JavaScript, Local Storage)**

Simple and interactive to-do list application developed using JavaScript, allowing users to manage tasks efficiently with essential features. Users can input a task into a text field and click an "Add" button. Each task has a delete button. Tasks can be marked as completed by clicking a checkbox. The app stores the tasks in local storage, work seamlessly across different devices

- **Spotify Clone (JavaScript)**

This project is a Spotify clone developed using JavaScript, focusing on building a functional music streaming interface, including a navigation bar, playlist view, and a music player at the bottom.

Education

- | | |
|--|-----------|
| • Anurag University
Btech | 2020-2024 |
| • Sri chaitanya jr college
Intermediate, MPC | 2017-2019 |
| • Krishnaveni Concept School
SSC | 2016-2017 |

Personal Skills

- Problem-solving: Proficient in identifying and resolving complex issues efficiently.
- Adaptability: Able to quickly adjust to new situations and environments
- Communication: Effective communication capable of conveying ideas clearly and concisely.
- Teamwork: Collaborative team player dedicated to achieving common goals.
- Leadership: Demonstrates strong leadership qualities in guiding teams towards success.
- Work Ethic: Being reliable, disciplined, and committed to delivering quality work consistently

Certificates

- C for Everyone: by Coursera
- Full-stack mern: by Nextwave
